

Player Statistics Manual

The Player Statistics is part of the TROLS (Tennis Results On-Line System) and is designed to allow clubs to access their player's statistics.

To access the Club Contacts database you should have a modern Browser:

- Microsoft Internet Explorer 5.x, or higher
- Opera 7.x, or higher
- Firefox 2.x or higher

The browser must have javascript enabled.

Here's how it works.

1. Obtain a Userid and password either from your club official, or, if no-one from your club has a Userid, contact Jillian Sanders at jillian.sanders@bigpond.com. Anyone who is registered as a club official, and can log into the system can allocate a Userid and password to any new user within their club.
2. Log on to **www.trols.org.au/brta** and click on "club zone", or via the link on Bayside Regional Tennis web-site.

3. Enter your Userid and Password.

A screenshot of the login page. It features the same circular logo as the navigation bar. To the right of the logo is the text "Bayside Regional Tennis" in a large blue font. Below this is the text "Please Login:". There are two input fields: "Userid:" and "Password:". A yellow speech bubble with a black border points to the Userid field, containing the text "Enter Userid and Password". Below the input fields are two buttons: "Login" and "Cancel".

The functions within this site work best when viewed with

An overall ranking (and a singles ranking – where applicable) is allocated to each player based on:

- a. Percentage of rubbers won against rubbers played (0-100%), then
- b. Percentage of sets won against sets played (0-100%), then
- c. Percentage of games won against games lost

The playing position in the team (1,2,3, or 4) is not considered when calculating the ranking.

The ranking and their playing position is used to determine a suggested grade.
